ENERGY FAIR PROVIDES INFORMATION ON HOME WEATHERIZATION AND MANAGING WINTER HEATING BILLS

Free Event Open to Public, Prizes and Demonstrations Planned

MERRILLVILLE, Ind. – Northern Indiana Public Service Company (NIPSCO) will be hosting an Energy Fair in La Porte County to provide residents with helpful information on home weatherization and managing winter heating bills.

The free event, which will be held from 10 a.m. to 1 p.m. CST on Sat., Jan. 26 at the LaPorte County Complex in LaPorte, is designed to provide the public with the tools, resources and information they need to learn how to become better energy users during the winter heating season and save money. The fair will consist of demonstrations by Kabelin Hardware, free information handouts, kids activities, giveaways and refreshments.

The Energy Fair will focus on different areas of interest that include:

- Educating consumers on how to use energy wisely and read their utility bill
- Demonstrating when, where, and how to insulate homes
- Providing low-income customers with information on how to apply for energy assistance, budget plans and other bill payment options
- Highlighting ways customers can participate in new energy efficient programs offered by NIPSCO

“NIPSCO is proud to host an Energy Fair in LaPorte County,” said Colleen Reilly, NIPSCO’s Director of Communications and Public Affairs. “Educating our customers on the importance of using energy wisely is an extremely important initiative during the winter season.”
