NIPSCO ANNOUNCES GAS COST ADJUSTMENT FOR JUNE

MERRILLVILLE, Ind. – Northern Indiana Public Service Company (NIPSCO) announced today that natural gas costs for June 2006 decreased compared to last month, due mainly to a decrease in wholesale natural gas prices. NIPSCO residential customers will see a decrease in natural gas costs of 7.02 percent when compared to May 2006. The Indiana Utility Regulatory Commission (IURC) approved the adjustment subject to refund. A typical NIPSCO residential customer using 50 therms of natural gas should expect a decrease of approximately \$3.81 from last month's statement in their June billing, although total bill amounts will vary as a result of actual consumption.

The primary reason for the drop in natural gas prices is reduced demand, which has helped to ease the natural gas supply and demand imbalance.

For natural gas customers who want consistent monthly payments, NIPSCO's BudgetPlan allows customers to spread gas costs over an entire year, and the Depend-a-Bill program provides a fixed monthly bill with no annual true-up. NIPSCO's Price Protection Service option allows customers to fix or cap their per unit cost of natural gas. Also, the NIPSCO Choice program gives customers an opportunity to choose an alternative natural gas supplier.

The GCA is an allowed monthly adjustment to the gas supply charge portion of NIPSCO's natural gas service rates. The adjustment, which must be approved by the IURC, reflects the fluctuations in the price NIPSCO pays in the marketplace for natural gas. The company passes on the costs of the natural gas directly to customers without any markup under its traditional, regulated GCA service option.
