Sheet No. 1 of 28

**TO WHOM AVAILABLE**

Available to a Customer on Rates 723, 724, 725, 726, 732, 733 and 734 or their successor rates who has a sustainable ability to reduce its Energy requirements through indirect participation in the MISO wholesale energy market by managing its electric usage as described by MISO. The Customer or Aggregator of Retail Customer (“ARC”) shall enter into a written Standard Service Agreement (“Service Agreement”) in the form attached hereto as Attachment A (Customer) or Attachment B (ARC) to curtail a portion of its electric load for single or multiple meters through participation with the Company acting as the Market Participant (“MP”) for the Customer/ARC. This Rider is available to any load that is participating in the Company’s other interruptible or Curtailment Riders, unless MISO rules change and do not permit load used by the Company as a load modifying resource (“LMR”) to also participate as a Demand Response Resource (“DRR”); provided, however, load may not participate as a DRR if such participation would be inconsistent with the provisions of Company’s interruptible or Curtailment Riders. Such a Customer may, however, participate as a DRR with any load at any site that is not committed as interruptible.

**DEFINITIONS**

- ARC:** Aggregator of Retail Customers. A third party that consolidates the applicable load of NIPSCO customers to NIPSCO in order to meet the minimum requirements under this Rider. A Customer either aggregating its load from different meters or serving as an ARC for other Customers is considered a third party ARC for purposes of this Rider. An ARC may only aggregate for purposes of curtailment on this Rider. Although a Customer may serve as an ARC, for purposes of this Rider, an ARC is not a NIPSCO Customer.
- ASM:** Ancillary Services Market which includes the market for Demand Response Resources.
- BPM:** Business Practices Manual currently in effect at MISO.
- Consumption Baseline:** The default calculation of the Consumption Baseline (“CBL”) shall be calculated pursuant to the relevant BPM or MISO tariff currently in effect. In cases where the default calculation does not provide a reasonable representation of normal load conditions, the Company and the Customer may develop an alternative CBL calculation that more accurately reflects the Customer’s normal consumption pattern subject to MISO approval.
- Curtailment Amount:** The amount of load the Customer/ARC reduces from its CBL.

Once approved for participation, the Customer/ARC must enter into the Company provided Service Agreement, which shall be no more than one (1) Contract Year in duration. This Service Agreement shall be renewed for up to two (2) additional one (1) Contract Year terms subject to the right of either party to provide notice of termination sixty (60) days prior to the expiration of the initial or any subsequent term.

In accordance with MISO's requirements, the Company shall have the right to perform a measurement and verification test prior to participation in this Rider to ensure that the selected Curtailment Amount option is viable and that the test results can be accurately measured and verified by all parties for settlement purposes. The testing will not require the actual Curtailment of Customer load except to the extent such actual Curtailment of Customer load is required under the MISO Open Access Transmission, Energy and Operating Reserve Markets Tariff and/or BPMs. As the MP, the Company shall have the final decision on the viability of the Customer's or ARC's measurement and verification.

**DRR Type 1 Energy Terms and Conditions**

1. **EVENT NOTIFICATION:** NIPSCO will notify Customer within 30 minutes after receiving information on Cleared Offers and/or dispatch instructions from MISO regarding Customer's DRR Type 1 offer submitted through NIPSCO. NIPSCO shall provide such notice in the manner outlined above.

2. **CUSTOMER REDUCTION OBLIGATION:** Customer is obligated to reduce load as communicated by NIPSCO in accordance with the MISO dispatch instruction. Deviations in load reductions above or below the dispatch amount may result in charges as described in the applicable BPM(s). Any such charges will be assessed to Customer.

3. **ENERGY COMMITMENT STATUS AND OTHER DAILY CHANGES TO OFFERS:** Customer may update its Energy Commitment Status ("Participating" or "Not Participating") daily through correspondence with NIPSCO as updated. Status updates must be received by 8:00 a.m. C.P.T. Energy Commitment Status may be changed daily with no additional charge to the Customer. Customer must specify a "Not Participating" status if load reduction is unavailable due to a forced or planned outage/shutdown or other physical operating restriction. Other offer parameters, including Cost Parameters, may be updated daily through correspondence with NIPSCO as designated. Status updates must be received by 8:00 a.m. C.P.T. the day prior to the day the status or parameter change will be effective. Customer shall be entitled to twenty (20) offer entry changes per calendar month at no additional charge to the Customer. Customer shall pay \$100 for each additional change, which shall be included on the Customer's monthly Bill and will first be netted against any settlement due to Customer as a result of a DRR Type 1 Event. Each offer entry change may cover any number of hourly offers/parameters in a given month, and such an offer entry change shall constitute one (1) change. All changes are subject to MISO limitations and will not permanently update the Customer's default offer unless specified by Customer. Further, if Customer's status changes and Customer cannot provide load reduction as offered, Customer must immediately notify NIPSCO. Customer is responsible for meeting all offer obligations when the offer is cleared.

4. **CUSTOMER OFFER COST PARAMETERS:** Customer may specify changes to its default offer parameters for each hour as specified in the relevant BPM(s). All costs are subject to MISO specified limits and MISO independent market monitor review. NIPSCO reserves the right to review daily offers and reject Customer proposed changes if offers contain errors or may create reliability concerns. All updates must be received by 8:00 a.m. C.P.T. the day prior to the day the status or parameter change will be effective. These updates will not permanently change the Customer's default offers unless specified by Customer.

5. **MEASUREMENT AND VERIFICATION:** Upon registration by the Customer, NIPSCO shall request a settlement CP Node from MISO for the DRR Type 1 resource. NIPSCO will utilize the baseline method as set forth in Rider 681. The Baseline Load will be provided to the Customer on the business day following the DRR Type 1 Event. Customer may curtail by the fixed reduction amount.

6. ENERGY SETTLEMENT:
- a. Customer will be eligible for compensation for load reduction for participating in a DRR Type 1 Event when cleared and dispatched. The MISO settlement information will be used as the basis for Customer event compensation. NIPSCO will reduce this settlement amount to account for the Marginal Foregone Retail Rate (“MFRR”) and any applicable fees as defined in NIPSCO’s Tariff.
  - b. In addition, NIPSCO will reduce Customer compensation in the event where additional MISO imposed cost is incurred as a result of the DRR Type 1 participation. In the event of such additional costs, NIPSCO shall provide supporting documentation to Customer upon request.
  - c. All MISO charges for non-compliance will be Customer responsibility. This will include subtracting from the amount received from MISO the sum of five percent (5%) of the total Cleared Offer for the part of the load that was non-compliant. The remainder shall be remitted on a monthly basis to the Customer through a bill credit as specified in Rider 681.
  - d. In the event that the amount specified in Paragraph 6(c) for the month is greater than the amount due to the Customer for the month in Paragraph 6(a) less any reductions as a result of Paragraph 6(b), a DRR Type 1 Event Debit (“Debit”) for the appropriate amount shall appear on the Customer’s Bill as specified in Rider 681.
  - e. In the event that a Customer has a Debit on its Bill as described in Paragraph 6(d), if the Customer does not pay the undisputed portion of that Debit by the Due Date indicated on the Customer’s bill, the Customer shall be suspended from further participation until such time that the Debit is paid.
  - f. Customer will receive DRR Type 1 Event Credits or Debits on its NIPSCO-issued electric bill. Depending on the Customer’s billing cycle and when DRR Type 1 Event Credits (“Credits”) or Debits are issued, posting of the Credits or Debits to the Customer’s Bill may be delayed. Customer will notify NIPSCO if Customer disputes any payments and/or charges reflected on the NIPSCO-issued electric bill. The Parties will attempt to resolve any dispute in accordance with Paragraph 14.
  - g. The process for determination of the Credits or Debits for each electric Bill is established in Rider 681.

7. **POWER INTERRUPTION:** If power is interrupted to Customer during a DRR Type 1 Event, then NIPSCO shall not be responsible for paying DRR Type 1 Event Credit for Energy reductions in excess of the amount received by NIPSCO from MISO. Examples of reasons that power may be interrupted include without limitation accidents, storm outages, equipment failures or malfunctions, and periods of involuntary Curtailment. Additionally, Customer shall not receive any DRR Type 1 Event Credit for any DRR Event excluded pursuant to the MISO Tariff or BPMs.

8. **CUSTOMER MAINTENANCE:** MISO rules apply.

9. **DAILY CURTAILMENT EVENT LIMITS:** If Customer desires only one (1) Curtailment event to be permitted per day then Customer should set offer parameters including Minimum Interruption Duration, Maximum Interruption Duration, and Minimum Non-Interruption Interval to appropriate values. NIPSCO will not restrict dispatch to only one (1) Curtailment per day.

10. **METERING AND TELEMETRY REQUIREMENTS:** If a Customer does not have an electric meter capable of providing the load metering frequency and telemetry required by MISO in the applicable BPM for each participating account or a more frequent interval, the Customer must install or have installed by NIPSCO, at the Customer's expense, appropriate metering before participation may begin. NIPSCO shall provide, upon request, the current MISO requirements. The cost of incremental metering and communication equipment needed to fulfill MISO requirements will be paid by Customer and NIPSCO shall be the owner of the metering equipment once it is installed.

11. **ANNUAL TESTING:** Customer must demonstrate load reduction capability annually as specified by MISO.

12. **ASSIGNMENT:** Neither Party shall assign this Agreement or any portion thereof without the prior written consent of the other Party, which consent shall not be unreasonably withheld, and any attempted assignment or transfer without such written consent shall be of no force or effect. As to any permitted assignment: (a) reasonable prior notice of any such assignment shall be given to the other Party; and (b) any assignee shall expressly assume the assignor's obligations hereunder, unless otherwise agreed to by the other Party in writing.

**DRR Type 1 Energy Service Agreement**

This DRR Type 1 Energy Service Agreement (“Agreement”) is entered into this \_\_\_\_ day of \_\_\_\_\_ 20\_\_ (“Effective Date”) and is between \_\_\_\_\_ serving as an Aggregator of Retail Services for Customers receiving service from Northern Indiana Public Service Company (“NIPSCO” or “Company”) as identified on the list of all individual Customers who are participating with the ARC (hereafter the “ARC”) and NIPSCO (collectively the “Parties”).

**General Terms and Conditions**

1. This Agreement is subject to the terms and conditions of Rider 681 – Demand Response Resource Type 1 (DRR 1) – Energy Only ("Rider 681") and the General Rules and Regulations for Electric Service in NIPSCO’s Tariff, as amended from time to time, and any successor electric tariff, as approved by the Indiana Utility Regulatory. Definitions contained in Rider 681 and the Tariff are incorporated herein by reference.

2. Service under Rider 681 shall commence upon the later of (i) full execution of this Service Agreement, (ii) acceptance of the resource registration and the Demand Response Resource Type 1 (“DRR 1”) offer by Midwest Independent Transmission System Operator, Inc. (“MISO”), (iii) installation and operational readiness of required electric metering and dedicated communication links with applicable electric meters, and (iv) collected minimum amount of interval meter data to calculate Baseline Load. The Baseline Load shall be the sum of all of the Baseline Loads for Customers whose load is being aggregated by the ARC.

3. This Agreement supersedes and replaces any and all other DRR 1 agreements between the ARC and NIPSCO.

4. NIPSCO will utilize telephone and electronic communication as the primary means to notify the ARC of events and to process ARC participation updates. This mechanism for communication may be altered with written consent of both Parties. The ARC will be responsible for communicating with individual Customers and providing their own Internet access and a telephone number to be used by NIPSCO. In the event that the Internet system is temporarily unavailable, NIPSCO will notify the ARC of an alternative participation update process. NIPSCO will provide written documentation and training on the process to be used by the ARC.

5. This Agreement shall not be construed as any promise or warranty by NIPSCO to provide continuous or uninterrupted power to any Customer.

6. The ARC shall be subject to testing and metering requirements of MISO for DRR Type 1 resources, as this term is defined by MISO, as specified in all applicable MISO Business Practice Manuals ("BPMs").

7. Customer Curtailment enrolled under this Agreement must be solely committed to NIPSCO and may not participate in any other DRR I or Emergency Demand Response Service Agreement either on its own or with another ARC.

**ARC DRR Type 1 Energy Terms and Conditions**

1. **EVENT NOTIFICATION:** NIPSCO will notify the ARC within 30 minutes after receiving information on Cleared Offers and/or dispatch instructions from MISO regarding the ARC's DRR Type 1 offer submitted through NIPSCO. NIPSCO shall provide such notice in the manner outlined above.

2. **ARC REDUCTION OBLIGATION:** The ARC is obligated to reduce load as communicated by NIPSCO in accordance with the MISO dispatch instruction. Deviations in load reductions above or below the dispatch amount may result in charges as described in the applicable BPM(s). Any charges will be assessed to the ARC and it shall be the ARC's responsibility to determine how to assess those charges to individual Customers.

3. **ENERGY COMMITMENT STATUS AND OTHER DAILY CHANGES TO OFFERS:** The Customer may update its Energy Commitment Status ("Participating" or "Not Participating") daily through correspondence with NIPSCO. Status updates must be received by 8:00 a.m. C.P.T. Energy Commitment Status may be changed daily with no additional charge to the ARC. The Customer must specify a "Not Participating" status if load reduction is unavailable due to a forced or planned outage/shutdown or other physical operating restriction. Other offer parameters, including cost parameters, may be updated daily through correspondence with NIPSCO as designated. Status updates must be received by 8:00 a.m. C.P.T. the day prior to the day the status or parameter change will be effective. The Customer shall be entitled to twenty (20) offer entry changes per calendar month at no additional charge to the Customer. The Customer shall pay \$100 for each additional change, which shall be invoiced to the ARC included on the Customer's monthly bill and will first be netted against any settlement due to the Customer as a result of a DRR Type 1 Event. Each offer entry change may cover any number of hourly offers/parameters in a given month, and such an offer entry change shall constitute one (1) change. All changes are subject to MISO limitations and will not permanently update the Customer's default offer unless specified by the customer. Further, if the Customer's status changes and the Customer cannot provide load reduction as offered, the Customer must immediately notify NIPSCO. The Customer is responsible for meeting all offer obligations when the offer is cleared.

4. **ARC OFFER COST PARAMETERS:** The ARC may specify changes to its default offer parameters for each hour as specified in the relevant MISO BPM(s). All costs are subject to MISO specified limits and MISO independent market monitor review. NIPSCO reserves the right to review daily offers and reject ARC proposed changes if offers contain errors or may create reliability concerns. All updates must be received by 8:00 a.m. C.P.T. the day prior to the day the status or parameter change will be effective. These updates will not permanently change the ARC's default offers unless specified by the ARC.

5. **MEASUREMENT AND VERIFICATION:** Upon registration by the ARC, NIPSCO shall request a settlement CP Node from MISO for the DRR Type 1 resource. NIPSCO will utilize the baseline method as set forth in Rider 681. The Baseline Load will be provided to the Customer on the business day following the DRR Type 1 Event. The ARC may curtail by the fixed reduction amount.

6. **ENERGY SETTLEMENT:**

- a. The ARC will be eligible for compensation for load reduction for participating in a DRR Type 1 Event when cleared and dispatched. MISO settlement information will be used as the basis for DRR Type 1 Event compensation. NIPSCO will reduce this settlement amount to account for the Marginal Foregone Retail Rate ("MFRR") and any applicable fees as defined in NIPSCO's Tariff.
- b. In addition, NIPSCO will reduce the ARC's compensation in the event where additional MISO costs are incurred as a result of the DRR Type 1 participation. In the event of such additional costs, NIPSCO shall provide documentation to the ARC upon request.
- c. All MISO charges for non-compliance shall be the ARC's responsibility. NIPSCO shall not be responsible for determining the individual Customer(s) responsible for non-compliance, nor shall the Company be responsible for assessing fees to the individual Customer(s). This will include subtracting from the amount received from MISO the sum of five percent (5%) of the total Cleared Offer for the part of the load that was non-compliant. The remainder shall be remitted on a monthly basis to the ARC through a DRR Type 1 Event Credit ("Credit") as specified in Rider 681.
- d. In the event that the amount specified in Paragraph 6(c) for the month is greater than the amount due to the ARC for the month in Paragraph 6(a) less any reductions as a result of Paragraph 6(b), a DRR Type 1 Event Debit ("Debit") for the appropriate amount shall appear on the ARC's invoice as specified in Rider 681.

**RIDER 781**  
**DEMAND RESPONSE RESOURCE TYPE 1 (DRR 1) – ENERGY ONLY**

Sheet No. 20 of 28

- e. In the event that the ARC has a Debit on its invoice as described in Paragraph 6d), if the ARC does not pay the undisputed portion of that Debit by the due date indicated on the invoice, the ARC shall be suspended from participation until such time the Debit is paid.
- f. The ARC shall receive payment from NIPSCO and/or an invoice from NIPSCO for Credits or Debits as specified in Rider 681. Depending on the time of the month when the Credits or Debits are issued, posting of the Credits or Debits to the ARC's account may be delayed. ARC will notify NIPSCO if ARC disputes any payments and/or charges reflected on the NIPSCO-issued invoice. The Parties will attempt to resolve any dispute in accordance with Paragraph 16.
- g. Payments and invoicing shall take place to the ARC once a month according to the schedule and process set forth in Rider 681.

7. **POWER INTERRUPTION:** If power is interrupted to individual Customer(s) during a DRR Type 1 Event, then NIPSCO shall not be responsible for paying the ARC for energy reductions in excess of the amount received by NIPSCO from MISO. In addition, neither the Customer nor the ARC shall be exposed to any charges for excessive energy from MISO. Examples of reasons that power may be interrupted include without limitation accidents, storm outages, equipment failures or malfunctions, and periods of involuntary Curtailment. Additionally, the ARC shall not receive any Credit for any DRR Event excluded pursuant to the MISO Tariff or BPMs.

8. **CUSTOMER MAINTENANCE:** MISO rules apply.

9. **DAILY CURTAILMENT EVENT LIMITS:** If the ARC desires only one (1) Curtailment event to be permitted per day then ARC should set offer parameters including Minimum Interruption Duration, Maximum Interruption Duration, and Minimum Non-Interruption Interval to appropriate values. NIPSCO will not restrict dispatch to only one (1) Curtailment per day.

10. **METERING AND TELEMETRY REQUIREMENTS:** If an individual Customer does not have an electric meter capable of providing the load metering frequency and telemetry required by the MISO in the applicable BPM for each participating account or a more frequent interval, the ARC shall be responsible for assuring the Customer installs or has installed by NIPSCO, at the Customer's expense, appropriate metering before participation may begin. NIPSCO shall provide, upon request, the current MISO requirements. The cost of incremental metering and communication equipment needed to fulfill MISO requirements will be paid by Customer or ARC and NIPSCO shall be the owner of the metering equipment once it is installed.

11. **REQUIRED NOTICE TO ADD OR DELETE CUSTOMERS:** Once an ARC has entered into the appropriate contractual or other arrangements with each Customer whom the ARC represents, the ARC shall deliver to NIPSCO a “Notice to Add or Delete Customers Participating in the DRR Type 1 Program” signed by the Customer and ARC. The ARC shall notify NIPSCO that it has dropped a customer service agreement from its portfolio by delivering to NIPSCO a “Notice to Add or Delete Customers Participating in the DRR Type 1 Program” signed by the Customer and ARC. With each submission of a “Notice to Add or Delete Customers Participating in the DRR Type 1 Program,” and until such time as ARC submits such Notice for the removal of such Customer from the ARC’s representation, ARC represents and warrants that:

- a. Each Customer whom ARC represents is eligible to participate in the DRR Type 1 program and has elected to participate through the ARC;
- b. The ARC has entered into the appropriate contractual or other arrangements with such customer whereby such Customer has authorized the ARC to receive payments from and to pay any fees to NIPSCO on behalf of such Customer in connection with such Customer’s participation in the program. The ARC shall make such agreements available to the Company upon request.

12. **ANNUAL TESTING:** The ARC must demonstrate load reduction capability annually as specified by NIPSCO and MISO.

13. **CONFIDENTIALITY:** The ARC shall not disclose any Confidential Information obtained pursuant to this Agreement to any third party, including affiliates of the ARC, without the express prior written consent of the Company. As used herein, the term “Confidential Information” means proprietary business, financial and commercial information pertaining to NIPSCO, Customer names and other information related to Customers, including energy usage data, any trade secrets, and any other information of a similar nature, whether or not reduced to writing or other tangible form. Confidential Information shall not include (a) information known to ARC prior to obtaining the same from the Company; (b) information in the public domain at the time of disclosure by the ARC; (c) information obtained by ARC from a third party who did not receive the same, directly or indirectly, from the Company; or (d) information approved for release by express prior written consent of an authorized representative of the Company.

14. **ASSIGNMENT:** Neither Party shall assign this Agreement or any portion thereof without the prior written consent of the other Party, which consent will not be unreasonably withheld, and any attempted assignment or transfer without such written consent shall be of no force or effect. As to any permitted assignment: (a) reasonable prior notice of any such assignment shall be given to the other Party; and (b) any assignee shall expressly assume the assignor’s obligations hereunder, unless otherwise agreed to by the other Party in writing.

The Party suffering an occurrence of Force Majeure shall, as soon as is reasonably possible after such occurrence, give the other Party written notice describing the particulars of the occurrence and shall use commercially reasonable efforts to remedy its inability to perform; provided, however, that the settlement of any strike, walkout, lockout or other labor dispute shall be entirely within the discretion of the Party involved in such labor dispute.

16. **DISPUTES:** In the event of a dispute between the Parties arising out of or relating to this Agreement, the Parties shall agree to seek informal dispute resolution or settlement prior to the institution of any other dispute resolution process. Should the informal dispute resolution process described herein be unsuccessful, the Parties agree that no written or oral representations made during the course of the attempted dispute resolution shall constitute a Party admission or waiver and that each Party may pursue any other legal or equitable remedy it may have available to it.
