

POSTING

NIPSCO is willing to provide its high voltage electric transmission customers with information regarding switching one day prior to the day the switching will occur. To the extent possible, NIPSCO will provide its customers with a time window during which the switching will occur on the following day. To obtain such information, please contact: businesslink@nisource.com .

NIPSCO is also willing to provide information regarding outages or electrical disturbances to its high voltage electric transmission customers within one hour. To obtain such information, please contact: businesslink@nisource.com .
