REQUEST TO INITIATE A TRANSACTION

For each transaction under the Parking Service Agreement, Qualifying Customer shall submit a request to initiate a transaction with the Company. Such request will include information required to determine whether Company's available service can accommodate Qualifying Customer's transaction requirements. This information may include, but is not limited to:

- a. the total and daily volume of natural gas in need of Parking Service;
- b. the number of days the Qualifying Customer requires the Parking Service;
- c. the location where the Qualifying Customer desires to deliver the gas;
- d. the location where the Qualifying Customer desires to receive the gas and the number of days over which the gas will be received; and
- e. any other information the Company deems necessary in order to determine the availability of the service.

Based on the information provided by the Qualifying Customer in the request to initiate a transaction hereunder, the Company will, in its sole discretion, determine whether it can provide the requested transaction consistent with its other contractual commitments and its overall operational requirements. Once the request is executed by the Company, its terms and conditions will be incorporated by reference into the Parking Service Agreement, and service will commence hereunder.

Requests for transactions shall be considered on a first-come, first-served basis. In the event that requests for transactions under Parking Service are received simultaneously and exceed available capacity, the requests yielding the greatest economic benefit to the Company, as determined by the Company, shall be granted first. As used in this paragraph "economic benefit" shall be determined, on a net present value basis, based upon: 1) the proposed contract rate to be paid for the GPS service, 2) the proposed term of the GPS service agreement and, 3) the proposed MDQ for the GPS service. In the event the net present value is equal among requests, then available capacity will be allocated on a pro rata basis among requesting Qualifying Customers. Allocation of capacity pursuant to this section shall not change the otherwise applicable curtailment priority of GPS service.

Company shall notify Qualifying Customer whether it can provide the requested Parking Service transaction.
