to see if
you qualify!

Appliance Recycling Program

Eligibility

- Appliance must be plugged in, working and empty at the time of pick-up.
- You must own the appliance (10-30 cubic feet).
- Limit of two appliances per household per year.
- An adult (18 years or older) must be available at the time of pick-up.
- In rare instances, older units may use sulfur dioxide as a refrigerant. These units are not eligible for recycling.
- We can only determine if your appliance contains sulfur dioxide upon visual inspection.
