

NIPSCO Energy Efficiency Program Opt-In Form

Definitions

DSM Rate Adjustment Factor: Mechanism utilized by utilities to collect Energy Efficiency Program Costs.

Energy Efficiency (“EE”) Program: A program that is (1) sponsored by the Company or a third party administrator; and (2) designed to implement energy efficiency improvements (as defined in 170 IAC 4-8-1(j)) for customers. The term does not include a program designed primarily to reduce demand.

Energy Efficiency (“EE”) Program Costs: Costs recovered under Rider 883, including program costs, net lost revenues and incentives, and reconciliation of applicable costs as approved by the Indiana Utility Regulatory Commission.

Qualifying Customer (to opt out of participation): A Customer that receives electric service under an approved Rate Schedule at a Single Site constituting more than 1,000 kilowatts (“kW”)/one megawatt (“MW”) of electric capacity.

Qualifying Load (to opt out of participation): A Single Site with at least one meter constituting more than 1,000 kW/one MW of electric capacity for any one billing period within the previous 12 months prior to the Qualifying Customer’s opt out notification to the Company. Such demand shall be measured with a demand meter that is used to measure demand for billing purposes. Electric capacity will be determined the same way demand is determined as indicated in the Company’s Electric Service Tariff.

Single Site: A Single Site shall be defined as contiguous property unless aggregation of multiple delivery points is specifically permitted under the applicable approved Rate Schedule as of January 2, 2020.
