# Prescriptive Incentive Program

For NIPSCO Commercial & Industrial Customers

The Prescriptive Incentive Program makes it easy for NIPSCO customers to receive an incentive for their natural gas and electric energy efficiency projects. Prescriptive Incentives are energy efficient measures paid per-unit, reimbursing the customer up to the total cost (including materials and labor) after the measures have been installed.

## Eligibility

Eligible customers include those currently billed under electric rates 820, 821, 822, 823, 824, 825, 826, 831 Tier 1, 832, 833, 841 or 844 and those who have not opted out of participation in NIPSCO's Energy Efficiency Program, and non-transport only natural gas rates 121, 125 or 151 (NIPSCO's Dependable rate).

## Prescriptive Incentive Cap

The incentive cap per project is \$500,000 annually per fuel. Each customer may receive up to \$1,000,000 annually per fuel. Incentives will be paid up to 100% of installed cost, including materials and labor. Funds are limited and therefore are paid on a first come, first served basis.

## Get Started!

1. Review the list of Prescriptive Incentive measures.
2. Purchase and install your energy efficient equipment. Incentives greater than \$10,000 require pre-approval prior to purchase or installation.
3. Submit your application and supporting documentation.
