

July 2023

Certification of Design and Construction of Groundwater Monitoring System (40 CFR §257.91(f))

**Northern Indiana Public Service Company
Bailey Generating Station
Chesterton, Indiana**

CCR Management Unit referred to as Primary 1 and Primary 2

I, Daniel Sullivan, being a Professional Engineer in accordance with the laws of the State of Indiana, and having experience in the design, construction, and operation of groundwater monitoring systems for surface impoundments and landfills, do hereby state that I am qualified in the subject matter of CCR groundwater monitoring. I have personally examined and am familiar with the information related to design and construction of groundwater monitoring systems for CCR management units located at the Northern Indiana Public Service Company LLC (NIPSCO) Bailey Generating Station, prepared by WSP USA Inc. and dated July 2023. Based on an inquiry of those individuals immediately responsible, and on supporting information which I understand to be true, accurate and complete, I believe the design and construction of the groundwater monitoring system for the Primary 1 and Primary 2 meets the applicable requirements of the CCR Final Rule. In consideration of the above, I certify to the best of my knowledge, information, and belief, that the groundwater monitoring system for the regulated CCR management unit referred to as Primary 1 and Primary 2 has been designed and constructed to meet the applicable requirements of 40 CFR §257.91 and corresponding State of Indiana requirements.
