

RATE 842
RATE FOR ELECTRIC SERVICE
INTERMITTENT WASTEWATER PUMPING-DISTRIBUTED SYSTEMS

No. 1 of 3 Sheets

TO WHOM AVAILABLE

This rate is available to private or governmental entities to provide power to systems for the pumping and removal of residential and small commercial sewage water and waste at multiple locations to a central waste water treatment facility. Available only for an integrated system consisting of individual distributed pumping units which operate intermittently. No single pump may exceed 1.1 horsepower energy rating or have a maximum energy consumption exceeding 200 kilowatt hours per year. The distributed pumps comprising the wastewater pumping system must be located in the service territory of Company, on electric facilities suitable and adequate for supplying the service requested.

CHARACTER OF SERVICE

Alternating current, sixty Hertz, single phase, at a voltage of 120/240 volts three-wire, or 120/208 volts-three wire, as designated by the Company.

RATE

Residential Locations

The rate for un-metered service under this schedule shall be \$2.75 per month per point of connection with the residential facilities of the company. If more than one pump is installed at any one point of connection, the rate for that connection shall be \$2.75 per month for each pump installed at that location. This rate is not available for installations of more than four pumps at any one point of connection.

Commercial Locations

The rate for un-metered service under this schedule shall be \$3.20 per month per point of connection with the residential facilities of the company. If more than one pump is installed at any one point of connection, the rate for that connection shall be \$3.20 per month for each pump installed at that location. This rate is not available for installations of more than four pumps at any one point of connection.

In addition to the rate per pump, stated above, there shall be a single customer charge of \$50 per monthly bill, regardless of the total number of pumps in the the Customer's system. The customer may elect to have the company aggregate all the pump locations in one integrated system for billing purposes, and the monthly customer charge of \$50 will be applied once to that bill.

RATE FOR ELECTRIC SERVICE
INTERMITTENT WASTEWATER PUMPING-DISTRIBUTED SYSTEMS**

No. 2 of 3 Sheets

OWNERSHIP OF SYSTEM-SERVICE LINES

The ownership of the property comprising a distributed wastewater pumping system, including pumps, piping, wiring, meter socket extension adapters, gauges and other appliances and structures is and shall remain with the Customer. Company shall own the watthour meter, service point connections, poles, wires, transformers and other facilities used to serve residential and small commercial premises where distributed pumping facilities are installed. Company will repair and maintain all equipment owned by Company, and Customer will repair and maintain all equipment owned by Customer. The Customer shall notify the Company, if, in the process of repairing Customer owned equipment, it is necessary to break the Company meter seal.

All connections to secondary voltage wires, meters, meter sockets, or other facilities of the Company used by Customer to power the distributed pumping system shall be performed by Customer at Customer's expense, in full compliance with the National Electric Safety Code, the National Electrical Code, and all other applicable standards, rules and regulations.

The connection scheme shall be as follows: Company will make any connections at the service point if the Customer elects to use the additional weatherhead method of connection. Otherwise, if an adapter is used at the meter socket Customer will make such connections. All connections will comply with the ten applicable engineering standards of the Company.

Where such connections are made, Customer agrees to save and hold harmless Company from any and all claims, losses, damages or costs, including attorney fees, arising, or alleged to arise, from the connection of Customer's pumping system, or from the procedures, workmanship, materials, facilities or other equipment used to effect such connections, with the facilities of the Company.

AUDITING AND BILLING OF DISTRIBUTED PUMPING SYSTEMS

Prior to installing new pumping devices, Customer must notify Company of the time and date of the proposed installations so that Company may verify the number of pumps installed for billing purposes. Customer agrees to allow Company to audit the records of Customer's wastewater pumping system, two times per year, to verify the number and size of the pumps located on Company's lines. Company also reserves the right to install metering devices on one or more pumps from time to time, to verify demand and energy consumption levels of installed pumps. Customer may not install pumps that do not meet the size limitations and energy consumption levels authorized for this rate, and if any such pumps are found to be operating on Company's lines, Customer will remove, at its own cost and expense, any such pump.

MINIMUM PAYMENT

The Customer's minimum payment under this rate shall be the single Customer Charge for each bill rendered, plus the charges set forth above for each point of connection with the facilities of the company.

PAYMENTS FOR SERVICE

Bills for distributed wastewater pumping system service under this schedule will be submitted by the Company to the Customer each month. After such bills have been presented for service rendered during the preceding month, Customer shall make full payment within seventeen (17) days.

CUSTOMER CREDIT ADJUSTMENT FACTOR

The rates and charges contained in this schedule are subject to a Customer Credit Adjustment Factor set forth in accordance with the Final Order of the Indiana Regulatory Commission, issued September 23, 2002, approving the Settlement Agreement in Cause No. 41746. See Appendix C - Sheet 59A, for the applicable Customer Credit percentage.
