

RATE 649
ELECTRIC VEHICLE FAST CHARGING – COMPANY OWNED CHARGING

Sheet No. 1 of 2

TO WHOM AVAILABLE

Electric Vehicle Fast Charging (EVFC) services will be available to all electric vehicle owners, without preference to Company's electric service customers, at NIPSCO-owned public electric vehicle charging stations where the Company provides fast charging service and accepts payments from the station user (electric vehicle operator).

CHARACTER OF SERVICE

EVFC services will be available at Company-owned stations with output of 50 KW or greater. The stations will be accessible to the public for charging of electric vehicles. Service under this rate is subject to the Company's currently effective and filed "General Rules and Regulations for Electric Service". In case of conflict between any provisions of this schedule and the "General Rules and Regulations for Electric Service," the provisions of this rate schedule shall apply.

RATES

The EVFC rate is calculated using NIPSCO's Electric service territory average for EVFC charging offered by individual fast charge stations in Indiana that charge a consumption-based or time-based fee, are greater than 50 kW in charging output capacity, are publicly accessible 24-hours per day. This average rate will be reviewed quarterly and updated when NIPSCO's Electric service territory average changes by more than 10% from the amount listed in this tariff.

Individual Station Fast Charge Electric Vehicle Energy Rate = $(R \times D) / K$

Where: R = Rate charge per minute

D = Charging session duration in minutes

K = KWH used per charging event

Energy Charge * \$0.4829 per kWh

Vehicle Idling Fee \$1.00 per minute

*Energy charge includes applicable Sales Tax.

TERMS OF PAYMENT

The vehicle idling fee may apply following a ten-minute grace period at certain stations located in close proximity to highway corridors or other highly trafficked areas. The Company reserves the right to limit station output (kW or kWh) based upon periods of high demand or high station utilization. The applicable rate (Energy Charge), including applicable taxes, will be visible to the users on the display. Users will be notified when the charging session is complete via the display located at the charging station and have the ability to obtain a detailed receipt.
