

358.5(d) Discounts

NIPSCO assigned functional control of its transmission facilities to the Midwest Independent Transmission System Operator, Inc. (“Midwest ISO”) effective October 1, 2003. NIPSCO also cancelled those provisions of its OATT, including the rate schedules, governing the provision of transmission service effective October 1, 2003. As NIPSCO no longer provides transmission service or has a tariff on file with the Federal Energy Regulatory Commission governing the terms, conditions, and rates of such service, NIPSCO is not able to offer discounts for transmission service using its facilities.
