

Outage Summary - August 10, 2020 Storm Event

The following is a summary for customers requesting official NIPSCO documentation or a report of a power outage in cases where customers require proof for their employer or to satisfy requests for food/damage reimbursement provided by insurance carriers or other local resources. Due to the volume of individual requests from customers, NIPSCO is unable to provide an individual report for each customer. Instead, customers may print and utilize this page to support their situation.

Below is a list of communities that were affected by power outages caused by a severe weather event Monday, August 10, 2020. Outages affected an estimated 95,000 NIPSCO electric customers. Nearly 90% of customers were restored within 48 hours, with some extending into Thursday, Friday and Saturday.
